21ST ANNUAL MEETING OF THE SBN

The next meeting will be in Long Beach, California (just south of Los Angeles), June 11 - 14. The hosts, Kevin Sinchak (CSLB) and Paul Micevych (UCLA) welcome you to Long Beach. Looking forward to seeing everybody there!

CALL FOR NOMINATIONS

SBN SCIENTIFIC ADVOCACY AWARD

Nominations for this award can be sent at any time and will be considered individually by the SBN Executive Committee. The award will not necessarily be given every year, but only as warranted. To nominate an individual, please send a copy of the candidate's CV and a letter describing how the individual's career exemplifies scientific advocacy. Nominations can be made at anytime. Please send nominations to the current President of SBN.

NOMINATION FORM

DANIEL S. LEHRMAN LIFETIME ACHIEVEMENT AWARD IN BEHAVIORAL NEUROENDOCRINOLOGY

The Society for Behavioral Neuroendocrinology honors one of its members with the Daniel S. Lehrman Lifetime Achievement Award. The award serves three important purposes: (1) to honor the lifetime achievements of distinguished investigators in our field; (2) to educate junior members of SBN about the life and work of distinguished senior members; and (3) to create an opportunity for publication education and outreach by highlighting the contributions of a distinguished member.

AWARD WINNER

CONGRATULATIONS JOHN MEITZEN

Please join us in congratulating one of our own. John Meitzen (Assistant Professor, North Carolina State University) received the Society for Neuroscience Next Generation Award. This award recognizes SFN chapter members who have made outstanding contributions to public communication, outreach, and education about neuroscience.

FROM THE PRESIDENT

HORMONES AND BEHAVIOR, ELSEVIER & EVISE

Members who have submitted manuscripts to *Hormones and Behavior* in the past year, or who have reviewed manuscripts, may have experienced difficulties using publisher Elsevier's new online system, Evise, and may have encountered delays in manuscript handling. Others may have heard reports of difficulties from colleagues. The decision to change to Evise was made by Elsevier and all of its many journals are, or soon will be, moved to Evise. Other journals and their authors are also experiencing difficulties with Evise. The Editor-in-Chief of *Hormones and Behavior*, Kim Wallen, and his Associate Editors have been working very hard to keep Elsevier informed about the problems and the urgent need to fix them. It is important to understand that the problems with Evise and their solutions lie with Elsevier, which created the system. We urge members to be patient during this transition to the new system and to keep those submissions coming!

Elizabeth Adkins-Regan, President

CALLING SOCIAL MEDIA EXPERTS

Calling all social media experts! SBN needs to have an active social media presence to best serve its members and attract new people. If you are interested in helping with this initiative, please contact the SBN President, Elizabeth Adkins-Regan (er12@cornell.edu).

NEW FUNDING INITIATIVE

SBN encourages donations to help fund student travel awards. Now that federal funding for meetings like ours has disappeared it is especially important for members to help out those at early career stages. [It is easy to donate](#) at the SBN website (there is a donation button on the home page), and you will find two new features on the donation page.

First, to kick off the new fundraising initiative a special drive has been launched to create a Lynwood Clemens student travel award fund in honor of our Lehrman Award winner who died this year. It appears as an option on the donation page.

Second, the page also includes an option to donate in celebration of someone at any time. "In celebration of" can honor either living SBN members (for example, someone who just retired or had a major birthday) or deceased members. All donors will be acknowledged in the annual meeting Program book in addition to receiving a thank you letter.

TRAVEL AWARD IN CELEBRATION OF LYN CLEMENS

With the passing of Lyn Clemens this year Behavioral Neuroendocrinology lost a pioneer who opened new areas of inquiry, and who trained and mentored an impressive number of outstanding scientists. Clemens started the Eastern Regional Conference on Reproductive Behavior, that later became CRB, the precursor of the Society for Behavioral Endocrinology. In 2009, Clemens received the SBN's Daniel Lerhman lifetime achievement award.
