Hormones and Behavior

The current issue of *Hormones and Behavior* is now available.

The current issue of *Hormones and Behavior* is now available. The table of contents for this issue (volume 65, issue 3) can be found at <http://www.sciencedirect.com/science/journal/0018506X/65>.

SBN Announcements

With sadness we report the death of Dr. Jay Rosenblatt on February 15, 2014. Jay was the first to receive the SBN Daniel S. Lehrman Lifetime Achievement Award. A tribute to Jay will be forthcoming in *Hormones and Behavior*. The link below is the press release from Rutgers University.

Meeting Information

2014 SBN Annual Meeting

The joint Society for Behavioral Neuroendocrinology (SBN)/International Congress of Neuroendocrinology (ICN) Meeting will be held on August 17-20, 2014, in Sydney, Australia.

Abstract submission deadline is: **April 4, 2014.**

Early Bird registration deadline is: **May 23, 2014.**

There is an exciting program including over sixteen Research Symposia, seven Plenary Lectures and several Poster Sessions. In general, the presentations center around four very broad themes of reproduction, metabolism, stress and neuropeptides.

SBN is well represented during the meeting and is specifically sponsoring two Plenary Lectures and four of the Symposia. SBN members are also participating in many of the other research symposia.

In addition, one symposium is completely designated to presentations

by the recipients of the Frank A. Beach, Daniel S. Lehrman and WC Young Recent Graduate Awards.

For all information see: <http://www.neuroendocrinology2014.org>

Please note there are a few differences this year compared to the programs of recent Annual SBN Meetings:

1. There will not be a designated Young Investigator Symposia. But instead there is a symposium designated to all SBN awards.
2. Unfortunately we will not be able to offer trainee travel awards this year due to budgetary constraints.

For any questions regarding the program or abstract submission, contact the SBN Program Committee Chair: Lique Coolen, PhD at lcoolen@umc.edu

Techniques in Neuroendocrine Research Workshop, Dunedin, New Zealand

A 6-day workshop will be organized in Dunedin, New Zealand, the week before the International Congress of Neuroendocrinology (ICN) in Sydney Australia. The workshop will give 30 young neuroendocrinologists (PhD students and early post-doctoral scientists) from across the globe the opportunity to become familiar with a wide range of techniques being used in neuroendocrine research. The Workshop will include six plenary lectures from world renowned neuroendocrine investigators, and a series of technique lectures from members of the [Centre for Neuroendocrinology](#) (CNE). Students will have the opportunity to undertake intensive hands-on research in [cutting-edge neuroscience techniques](#). Attendance at the workshop, accommodation and most meals are free. Students will be responsible for arranging their own travel to and from Dunedin. Students attending the workshop must go on to the [Sydney ICN](#) Meeting. Full details are available at <http://www.neuroendocrinology.otago.ac.nz/workshop.html>. The applications have just opened and will close in mid-April.

2014 Meeting of the Organization for the Study of Sex Differences (OSSD)

This Annual Meeting will be held April 24-26, 2014, in Minneapolis, Minnesota. The meeting focuses on sex and gender differences in biological processes, behavior, disease, healthcare or graduate/medical curricula. For information on registration and abstract submission, visit <http://www.ossdweb.org/2014meeting.html>.

Announcements from Societies of Interest

Society for Social Neuroscience (S4SN) Call for Proposals

The 5th Annual Society for Social Neuroscience (S4SN) Meeting will take place in Washington, D.C. on **November 13-14, 2014, just before SFN**. The meeting will consist of a Keynote Address by Dr. Michael Meaney, several symposia and a poster session. The Program Committee is now accepting symposium proposals. We encourage you to submit an exciting symposium proposal that includes two talks from an animal model perspective and two talks from a human research perspective on a single theme related to Social Neuroscience. The nomination (which should consist of a brief description of the symposium theme and the list of speakers) should be emailed to the

Program Chairs, Dr. Alexa Veenema and Dr. Caroline Zink, at alexa.veenema@bc.edu and caroline.zink@libd.org before **April 11, 2014**. S4SN will not be able to pay travel or registration expenses for speakers. Details regarding registration, abstract submission and venue for the 5th Annual S4SN Meeting will be posted on www.s4sn.org soon!

FULL DESCRIPTIONS ARE AVAILABLE ONLINE AT THE SBN WEBSITE <http://www.sbn.org/opportunities/bno.aspx>
